Stocky, solid, beefy... this still-young red and white bull is one of our new herd sires. He's out of the Deer Creek program and measured 60.25 inches at 27 months old. Add 5 inches for the tip he broke off and he's off to a great start on the horn length. This guy is the total package with size, horn, color and mellow disposition. Looking forward to seeing what he produces!
